Customer Reviews

I knew what I was getting when I ordered this book. It has a limited selection of recipes, but, some of it is very misleading. Not all recipes in the book are for slow cooker, some are just regular recipes that you make without the slow cooker. I was not expecting that and it was not clear beforehand. Overall decent recipes and they do work, however slightly misleading.

There are very few recipes in here that fall into the "set-it-and-forget-it" category. Many of the recipes that do use the slow cooker are less than 4-5 hours, and most use it only to simmer a sauce for two hours while you make the rest of the components of the meal on the stove or in the oven. Just thought other browsers should be aware that this isn't going to help you if you're looking to come home after a full day of work and have meal waiting for you.

The recipes for the slow cooker I like best are ones where I can throw everything together, turn it on and have a delicious dinner 8 hours later. Some of these lovely recipes fall into that category but many require either extensive advance prep or closer monitoring. That said, this is a wealth of delicious Indian recipes.

If you enjoy Indian food, this is the book for you. Not a lot of weird ingredients needed on hand, easy slowcooker process. We loved it simply for the recipe for curry sauce to make, freeze and have on hand when needed. That in itself was worth the purchase. But we also made several other recipes and just loved them.

Great inspiring recipes; some you need to start on the stovetop. I haven't done very many, but the ones I did came out great. In general, these recipes take a shorter cooking time than the stews I usually make. Thanks for putting out a book on this slightly esoteric subject.

I love this cook book- I love my slow cooker- It has never been easier to make indian food, now that i use my slow cooker- if you like indian food- and has realized how incredibly difficult it is to cook and stand over a stove all day- then buy this book!

I use my slow cooker nearly every day and I love Indian food. When I saw this book, I knew I had to get it. I love the recipes in this book and highly recommend it! I purchased the digital edition, so I can not comment on the quality of the paper stock in the book.
