Anime Figures: Tokyo's Hottest 50 Anime Figurines

Synopsis

If you like your women sassy, sophisticated and synthetic, then get in line, 'cos anime figures are hot and getting hotter! The half-naked lumps of plastic that line the shelves of Japan's otaku stores ooze such sex appeal that demand and supply might as well live on different planets. That's all well and good if you're The Man, but with prices as high as a Tokyo tenth-grader's skirt, how's the "real fan" of My-Hime, ToHeart2, or even Night Shift Nurses, ever gonna get his hands on his significant other? The answer is Anime Figures-Tokyo's Hottest 50 Figurines. For much (much!) less than the price of one figure, 50 of the hottest girls to come out of Tokyo's sexiest anime productions are introduced in gorgeous, glossy full color. Some you already know--Rei Ayanami from Neon Genesis Evangelion, Mizuho Kazami from Please Teacher!--and some you're gonna wish you knew--Mizuki Tasake from Comic Party, and "bodacious bovine babe" Sanae Aizawa. Totally authentic, totally hot, this sizzling collection of PVC pin-ups is a must for every red-blooded anime fan. *Contains PVC Nudity

Customer Reviews

Although I personally never owned a Japanese anime PVC, I've seen them so many times in Akihabara, sold at anime conventions and I can see why otaku really go for them. These PVC action figures feature anime characters in the sexiest and seductive pose, really good craftsmanship and a keen sense of detail on umm...certain body parts. These figurines are the ultimate in fan service but the chance to own them is a collector's dream. The book features two pages with photos of Tokyo's

hottest 50 figurines. Americans will no doubt know Amami Misa of "Death Note", Belldandy of "Ah! My Goddess", Ayanami Rei of "Evangelion" and video game fans who may know Tojo Mitsuho of "Persona 3" and Shiori and Shion of the popular "Melly Blood" series. The photos by Shimono Yoshio really capture the craftsmanship of the figurines. The sculpting are very well done and one thing that these PVC's sure do emphasize a lot are on the female character's breasts and nipples sticking out through their clothing. Also, the fan service of a anime girl with her skirt flowing in the wind and a peek at her underpants. It's quite perverted if you think about it, especially if you are not into figurines. But for toy collectors in America who like detail for "Star Wars" figures, especially that Slave Leia and Scarlett or Baroness of GI Joe and how their curvatures are shown and give them a slight fan service, the Japanese figurines make sure that the otaku gets their money worth. One PVC featuring Shion of "Melly Blood", is shown on all fours in her school girl outfit (maybe looking for something she lost in the ground) and of course, fan service giving a sneak peak of her rear end.
