## Customer Reviews

I am so glad I ran across this book. Jason Miles is a genius. He answered every question I had about Ebay selling - and told me a lot I hadn't even thought of. If you have ever considered selling on Ebay - this is the book you need. I have bought several of his other books and they are all goldmines of info. Annie R

Just finished reading "EBAY Auction Power" by Jason Miles. WONDERFUL INFORMATION!!!

Since I've been away from the doll world for about three years, I am thinking about doing a RE-LAUNCH of "Darling Dolly by Mama Lisa Designs" on a limited/part time basis. This book shows that a part time/limited auction based business CAN be a success. It points out where I was going

wrong before, but ALSO where I was doing a good job. Super interesting and an encouragement. LOVE the step by step methods. THANK YOU Jason Miles !!!

This crafters guide is very helpful to anyone in the industry of making and selling goods on Ebay, the book is also a very good tool to have and keep as a reference guide and review guide if you are having problems selling on Ebay.

This book is amazing! It is packed with highly effective strategies. I am always highly pleased with every book and project that Jason Miles and his wife, Cinnamon Miles create. If you are an entrepreneur looking to expand your business, this is the book for you. You will not be disappointed.

As always, Jason has just the perfect way of going about explaining online selling methods to people who have never done it as well as those of us who know how to sell but need some additional pointers and secrets of Liberty Jane's success. His ebooks are always an enjoyable and easy read--I read mine on my iPhone and it's formatted just perfectly!

Just okay. A philosophical approach to eBay that just seems to go on and on. What a boring read. 3 stars

Excellent source of helpful information about auction sales on ebay from a very successful marketer.

This is one book I would highly recommend to anyone beginning an online selling business, or just thinking about it. The experience of the authors is very relevant to my situation, and there is much here I have already begun implementing. The authors explain a variety of selling venues and when and why a seller might select one over another, depending on what type of product you plan to offer. It discusses marketing approaches and includes lots of links to other sources of relevant information. Great resource to have in your electronic library. Frances
