ISBN-13: 978-1118523223

Product Dimensions: 7.4 x 0.7 x 9.3 inches

Shipping Weight: 1.5 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 starsÂ  See all reviewsÂ  (21 customer reviews)

Best Sellers Rank: #571,154 in Books (See Top 100 in Books) #62 inÂ  Books > Computers & Technology > Mobile Phones, Tablets & E-Readers > iPad #82 inÂ  Books > Computers & Technology > Programming > Apple Programming #106 inÂ  Books > Computers & Technology > Mobile Phones, Tablets & E-Readers > iPhone

## **Customer Reviews**

I don't know how Carla White does it differently from other authors, but I just understand the topics in her book at a whole new level of comprehension. Although there is a lot of personality in this guide, which I enjoy, it is more than the author's personal journey with her app development. It is an amazingly helpful guide that walks the reader through the process of creating their first app. I'm mid-way on the journey to creating my first app. This is a well-written highly understandable thorough guide for me. Right away, the author addresses many of the excuses a novice app developer imagines in their mind including my favorites: "I don't have the time.", "The app market is saturated. I don't stand a chance.", and "What if I fail?". "People want apps that give them

superpowers, help them solve a problem, or simply let them unwind." Chapter 2 is all about the idea for an app. This chapter is my favorite since it is a gold mine of ideas and strategies. Finding, contracting, and working with a software developer for app code and test is the big topic for Chapter 4. Being a non-iOS seasoned coder myself, I am intrigued with how hard others find working with us. Humbling ...Chapters 5-7 are all about going live! I'm not there yet. However, the author has been there. She knows how. Everyone knows that success in the app store, or any endeavor, means going the distance. Something about perseverance. Pros: - There are numerous relevant links through the book. Several of the links have accelerated my development or provided a solution (e.g., tribes/proxies, cloud options, testing options/links, graphic design tips). - This is a personal journey for the author.
