Borders, Trim & Frames For Scroll Saws (Woodworker's Pattern Library Series)

Synopsis

Striking designs range from the basic, with simple lines and little detail, to ornate swirls and curls and pictorial motifs. Create unusual name plates, house numbers, or clocks. Frame works of art, bulletin boards, and anything else that calls out for some pizzazz. Repetitive linear designs work especially well in architectural applications around doors, windows, and archways. Some can be used as furniture and cabinet overlays. Tips are given for transferring the patterns and sizing them with a photocopier.
