## Customer Reviews

I have found this little book very handy for dating old Winchesters by serial numbers. The accuracy of the data in the book is by far the best that I have seen. If you are collecting old Winchesters, this little book is a must and it will fit in your shirt pocket for handy referencing at gunshows and auctions.

All the info is there but in a bit of a jumble. Its good for early guns but thins out in later issues

this book is a valuable addition to those who want to know the dates of manufacture on winchester firearms. a no-nonsense book priced right.

Great
