Customer Reviews

This incredible book from Fisher Price was a life saver for my 30 month old twins! Their first visit to the dentist, just after 24 months, was a nightmare! This time, however, we read this book several times and talked about it a lot before going. They were so excited and knew just what would happen. Even the hygienist and the dentist were impressed! We took the book with us just in case, too!! highly recommend this book for anyone with young children.

We read this book several times before heading to the dentist. We even read it on the way! When we got to the office, it was just like the book and the appointment went like a dream with my 2.5 y.o.!Gotta love Little People! :)
