Customer Reviews

Maybe Mad Libs just aren't as fun as an adult, but this one fell a bit flat. Each story seemed to be rather short or just didn't have good storylines. Generally, there seemed to be about 1 line in each story that ended up being funny. But, all that being said, my kids enjoy them!

We handed these out at the twins' bday party as party favors. So much better than a bag of junk and candy. It was a great hit AND they are learning as they go. The kids love it, laugh their butts off, and the adults were enjoying it as well. We had some leftover and we've had some great family fun with them.

This book is quite entertaining for my 6 year old. Compared to original mad libs, this one is

genuinely funny. I had her write the responses on another sheet of paper and so she was able to reuse the stories over and over. Great book!

What can I say? It teaches our 3 boys grammar (nouns, verbs, adjectives, adverbs, & pronouns), and they have no idea that they are learning! They laugh as hard when they read them back as I did as a kid.

Really what more needs to be said, these are fun for the family and amazing learning tools. We enjoy them as a family!

My 10 year old loves Spongebob AND Mad Libs! Best of both worlds! He's having a blast with it! Glad to see they're still making Mad Libs, they were a favorite back when I was 10!

Mad libs are always fun and these spongebob are no different. It has cute scenarios that are great for kids.

Super fun, addicting and lots of the sentences are what you see in the TV show and you can add your funny words to it. Lots a pages.
