Customer Reviews

Don't waste your money on this - it's all basic info that anyone who cooks should already know. Buy plastic containers and use a crock pot was not what I was looking for in a book titled "Meal Prep: For Weight Loss". I was very disappointed and will never buy this author again!

Wanted whole book and this wasn't whole book. I don't know why they didn't tell me it was just a

sample.

This book taught me to always read reviews before buying.

I am a morning person and loves to eat, i am exercising for few days, but just exercising is not helping me, so therefore i am trying to find good recipes to stay fit, your book is definitely start up for my healthy routine. This is written in a good manner and i am going to follow it and going to tell my fellows to read this amazing book.

Its all about the meal , healthy meal, delicious meal. I think this is the one of the best book for the food lover and also for those who wants to lose their weights and become slim and smart. This is one of the best opportunities for them.

Not the whole book. Just a small little pamphlet. Definitely not worth the price.

very short and is really just common sense

My fault for not reading description but i was looking for a recipe meal prep book not a how to.
