Illuminated Art Glass - Featuring 14 Lampshade Kiln Cast Projects

Synopsis

Jayne Persico transports you into a world filled with 'Illuminated Art Glass' through her mastery of colour, light and high style. This book reveals her ingenious lamp-making process using all colour photographs, detailed instructions and helpful design tips. You will discover an impressive array of glass kiln techniques from frit casting to tack-fuse assembly to ultra-managed slumping. The book features over 160 colour photographs enabling readers to examine these specialised techniques in depth and experience an expert's point of view and approach. Step-by-step instructions will guide the reader through 14 unique projects. This book includes details on casting moulds, tools, equipment, kilns, and a comprehensive look at digital controller programming. Glass trend-setters and style-makers from all walks are sure to find this book inspiring and enlightening.

Customer Reviews

This book is even more fun than you initial think it might be -- Not only does it provide sound, solid, carefully-incremental instructions on how to make lamps of the kind illustrated on the cover (and, equally as well, throughout the book) but it ALSO provides a wealth of information the kiln artist can utilize for putting together many other kinds of extra-thick glass projects that require long firing schedules. (The kind that should take two or three days of firing to achieve, that is.) You don't find this kind of information for long firings everywhere! The illustrations are very good. Additionally, the author shows how to take ordinary "store-bought" lamp fixtures of standard sizes and shapes -- and create your own designer fused glass panels for these -- which means you aren't required to buy

fixtures from craft stores at their understandably higher prices. AND the author puts all of this in a form even a new, just-out-of-the-box novice kiln owner can beautifully undersand and utilize! GOOD BUY!
